DYNAMIC, SWEEPING COOLNESS

OSCILLATING MIST FANS FOR CONSISTENT, WIDE-AREA COMFORT

Experience the ultimate in cooling technology with the Aeromist Oscillating Misting Fan, designed to bring you instant relief on the hottest days. Whether you're looking to enhance your outdoor patio, poolside, or any industrial space, this fan offers a powerful mist that cools the air efficiently without drenching your surroundings.

Our Oscillating Misting Fan features a robust design with a 24", and 18" oscillation range, ensuring wide coverage and optimal air circulation. The easy-to-use functionality allows for quick adjustments, making it perfect for both residential and commercial use. Its heavy-duty construction guarantees durability and performance, even in the toughest weather conditions.

Don't let the heat beat you this summer. Choose the Aeromist Oscillating Misting Fan and enjoy a cooler environment instantly. It's more than just a fan—it's your best defense against the heat, ensuring comfort and freshness wherever you need it most.

1000 PSI Pump Recommended for Optimal Performance

EXTRAS SELECTION

When choosing the ideal fan for your setup, it is crucial to choose the right items to complement your system.

STANDARD INSTALLATION

- 1** Select Nozzles - Begin identifying your need based on your applications climate. You will need 5 nozzles for your Oscillating Fan. Our Anti-Drip nozzles range from .004 orifice size (finer mist) to a .020 orifice size (larger droplets). For humid climates we typically recommend .008 nozzles and dry climates we recommend .012 nozzles.
- 2** Match with the Right Pump - Make sure to select the right pump for your misting needs. With our wide range of 1000 PSI High Pressure Pumps, there is a solution for everyone.
