

XTREME

HUMIDITY CONTROL SYSTEM
STARTING AT \$1799

UNMATCHED HUMIDITY, ULTIMATE COMFORT

RELIABLE INDOOR HUMIDITY CREATION SYSTEM

Precision and state-of-the-art design are combined with Aeromist's Xtreme XL Commercial Industrial Humidification System. Engineered to manage areas up to an impressive 4000 sq ft, this unit delivers unmatched performance and improved air quality and airflow. It offers long-lasting resilience and is virtually maintenance-free, allowing you to focus on your operations without interruption.

- Mist Output: Up to 1.8 gallons of mist per hour
- Water Management: Fully automatic electronic solenoid water feed with an integrated water pressure regulator
- Humidity Control: Built-in digital humidistat with customizable sensor cable lengths
- Air Quality Control: Programmable ozone generator that guarantees water mist purification complete with waterproof dual ball bearing fan
- Safety and Functionality: Equipped with a waterproof GFCI 1A plug and cord
