

VARIABLE FREQUENCY DRIVE

1000 PSI ENCLOSED MIST PUMPS
STARTING AT \$3799

ULTIMATE CONTROL, MAXIMUM EFFICIENCY

VFD PUMP FOR PRECISION MISTING

At the heart of this pump lies a Heavy Duty Cat Pump, renowned for its reliability and performance. With a Totally Enclosed Fan Cooled system, it ensures optimal cooling and protection for prolonged operation. What sets this pump apart is its Variable Speed Drive, allowing you to precisely control the misting output, resulting in energy savings and tailored comfort.

Equipped with Internal Mounted Solenoid Zone Valves, this pump offers convenient zone control for customized misting areas. It incorporates Low Water Protection programming, ensuring the pump is safeguarded against potential damage due to low water levels. The Dual Filtration system guarantees clean and refreshing mist, free from impurities.

Built to withstand outdoor elements, this pump is Outdoor Rated and Weather Resistant, making it a reliable choice for any environment. Its Durable Powder Coat Finish adds a layer of toughness, while the Disconnect Switch provides a convenient way to shut off the power when needed.

FEATURES & BENEFITS

-  Zone control
-  Misting output control
-  Low-pressure safety switch
-  Outdoor-rated
-  3- Year Warranty

PRECISION CRAFTED IN THE USA

PUMP SELECTION CHART

When choosing the ideal pump for your setup, our intuitive selection chart streamlines the decision-making process into 3 straightforward steps:

STANDARD INSTALLATION

- 1** Select Nozzle - Begin identifying your need based on your applications climate. Our nozzles range from .006 orifice size (finer mist) to a .020 orifice size (larger droplets). For humid climates we typically recommend .008 nozzles and dry climates we recommend .012 nozzles.
- 2** Determine Nozzle Quantity - Count the nozzles required in your system, which corresponds to the "Quantity of nozzles" in the chart's body.
- 3** Match with the Right Pump - Align your system's flow needs with our chart to select a pump that promises optimal performance, ensuring your system operates at peak efficiency.

		Amount of Nozzles						
		.004 (.008 GPM)	.006 (.013 GPM)	.008 (.020 GPM)	.010 (.024 GPM)	.012 (.028 GPM)	.016 (.040 GPM)	.020 (.050 GPM)
Nozzle Size	20-40	30-60	60-120	94-188	125-245	188-376		
	13-26	20-40	40-80	58-116	80-160	116-232		
	8-15	13-25	25-50	37-75	50-100	75-150		
	7-14	11-21	21-42	32-64	42-84	64-128		
	5-10	9-18	18-36	26-53	36-72	53-106		
	4-8	6-13	12-25	19-38	25-50	38-76		
	3-6	5-10	10-20	15-30	20-40	30-60
